Subject: KU Employment and the Glacier Tax Compliance Website

Hello,

You should have received an e-mail a few minutes ago from support@online-tax.net with instructions to go to the Glacier tax compliance web site at www.online-tax.net. Please do so as soon as possible as this is mandatory and you must comply shortly after receiving this e-mail. **Non-compliance may result in the charge of social security and Medicare tax that is non-refundable until you do your year-end taxes in the following year.**

Glacier is an international tax compliance web site that the university uses to ensure the international employees are being taxed correctly throughout the year and to make sure that they are aware of any tax benefits that they may be eligible for throughout the year. At the end of the session there will be forms for you to print out and sign.

Please submit the signed forms to:

Richard M. Davis
